What will the Minnesota papers do to fill up with now?

The Junction Capital complains that the Fargo has been inartistic.

From every quarter come commendatory comments on the Tribune's course in fighting the local ring.

The republican party can be relied on to close up their ranks when it comes to a presidential election.

JUDGE BROOKINGS predicts that the republican presidential ticket for 1884 will be Blaine and Logan.

The Valley City Times has a label on hand, Heretofore not using for \$117,000 damages. The Times must possess considerable influence.

Two barbers are going to have a shaving match for \$100 a side, in Huron, and the Times intimates that the land agents will furnish a check for the match.

The Pioneer Press is the election of Gen. Butler is a huge practical joke which the people of the United States will enjoy better than Massachusetts will.

Gov. Ordway has granted a day's respite to James Gilmore, a young man from Ohio who was to have been hung on Friday. The gallows were erected and all preparations had been made for the event, when the reprieve arrived.

UNITED STATES SENATOR Vest, of Missouri, had a narrow escape from drowning Friday while fishing in the Quachita river, six miles south of Hot Springs, Ark. He was carried over a mill dam in his boat and came near being swept away by the swift current.

PIONEER PRESS: "I know I am ruined, but I had a glorious good time while it lasted," groaned John N. Beach, the unworthy son of a noble Minneapolis sire, when he was arrested at Cincinnati for forgery. The lad is but seventeen years old in years, but he is gray headed in iniquity.

In a recent sermon Mr. Beecher said: "When the time comes for the people to say that intoxicating liquors shall not be sold, I shall be heart and soul with the movement, but I am bound to say that in my opinion the time is not ripe for any such movement. When any man finds that he is injured by drinking any kind of stimulant, he should stop, as he should leave off every bad habit. But any general law that undertakes to regulate the eating or drinking of a whole people, will not be made operative."

Here are some conundrums from the Valley City Times: "Do your metropolitan city papers give your home news? Do they contain notices of your churches, meetings, improvements and hundreds of other matters of interest to you? Do they carry on without pay? Do they say a word calculated to draw attention to your town, and aid in the progress and enterprise of your immediate vicinity? Answer these questions and then determine for yourself whether the city or local paper is deserving of your support first of all."

The following appears in the Argus, signed by R. E. Fleming, president of the Fargo electric light company: "Dangerous Electric Light.—Contractors, builders and workmen are notified that in tantaneous death lurks in every coil of the electric light wires. In repairing buildings, where electric light wires enter, workmen have sometimes cut them, or detached the coils. So far no fatal calamity has occurred, but need should be taken of this warning, and those who desire to remove the wires, or change them in any manner to make repairs in any building, should notify the company and have an expert attend to the change. Otherwise some one will meet a sudden and instantaneous death."

The Jamestown Alert has this to say about the result of our local election: "Col. Lounsbury, of the Bismarck Tribune, crows long and loud over the success of the Citizens' ticket at the election which his paper supported with firmness and ability during the campaign. It seems that the republican count was given to nominal as a county ticket was packed and captured by an element of the party that had become odious, which the Tribune and a large following of the party utterly repudiated, and combined with citizens regardless of party, to overthrow the usurping dynasty that had obtained control of the party machinery at the nominating convention. How positively, the result of the ballot shows. If it had not been for the reforming powers of the republican party within itself it would have gone to pieces years ago, and when it ceases to do so the time of its dissolution will be near at hand. The predisposition of any and every political party is to corrupt, for the simple reason that corrupt and selfish demagogues always flock to the party in power and unite with it for the purpose of plunder and self aggrandizement. The reforming and recuperative powers inherent in the republican party have been sufficient in local, state and national contests, to slough off these barnacles, and it has exercised that power whenever and wherever the occasion demanded it. The news from Pennsylvania and New York, where, in the former named state the masses of the party turned upon and rebuked the Cameron ring of self-imposed leaders, and in the latter state the Cameron domination. The masses of the party have served notice upon the rings and bosses who assume unwarranted authority that they will not submit to such domination."

What They Think in England.

LONDON, Nov. 9.—The Telegraph says: Englishmen can hardly contemplate with equanimity the probability that the next president of the United States will be a democrat, as it is doubtful whether changes the democrats would introduce in the American tariff will be of advantage to England. It is also worthy of recollection of the democratic party, which was always deeply in antagonism with England, still, whether the elections resulted in a republican or democratic victory, Englishmen may heartily wish their kinsmen delivered from machine politics, which was fraught with menace to the best interests of America.

Heavy Safe Robbery.

CLINTON, Pa., Nov. 9.—Bartholomew & Co.'s bank safe at Preston was blown open last night and robbed of several thousand dollars. It is believed the burglars, four in number, went from this city in a buggy.

THE BATTLE OF BALLOTS.

NELSON WINS IN THE FIFTH MINNESOTA DISTRICT.

Cleveland's Majority Probably 200,000—Reported Election of Botkin in Montana—Other News, Political and Non-Political.

Tribune Specials.

FARGO, Nov. 7.—[Special.]—Raymond has 1,028 votes in Fargo. Alfred has a majority of 125 over Edwards in the city, and returns from the outside precincts give him 500 majority more. Edwards is beaten in every ward in the city.

FARGO, Nov. 7.—[Special.]—Scattering returns from the Fifth district give Kindred heavy votes. Nelson gets only 69 majority in Moorhead, where it was expected he had 300. Edwards is beaten in Cass county by 100 majority. The balance of the ticket is elected by 200 majority. Richland county polled 1,300 votes.

FARGO, Nov. 9.—[Special.]—Griggs county had a fight on the question of moving the county seat. The west side votes about 600, it is reported all for Maratta. The east side votes 342, said to be 300 for Maratta.

Ransom county gives Maratta between 60 and 100 votes.

Barnes and Sterling give Nickens a majority of 1,200. It is doubted if it can be overcome.

FARGO, Nov. 9.—[Special.]—Lisbon and Sheldon, in Ransom county, give the republican legislative ticket 400 majority.

THE BATTLE AT JAMESTOWN.

JAMESTOWN, Nov. 7.—[Special.]—Maratta and Benson are running behind their ticket Goodrich and Nickens will get a majority of five or six hundred in the county. Everything too badly mixed to give result before 8 o'clock to-morrow morning.

THE DAY AT GLENVIEW.

GLENVIEW, Nov. 7.—[Special.]—At Dawson county's first election to-day over 300 votes were polled, 543 being cast in Glenview. Maginnis will have a majority of 450 and possibly 500 in the county. The entire people's ticket is now conceded elected. J. F. Maloney, representative; Robert Pontet, S. L. Bean and N. W. Comford, commissioners; James Taylor, sheriff; W. H. Raymond, clerk; A. J. McMillan, treasurer. Everything lively but orderly.

GENERAL DISPATCH FROM FARGO.

FARGO, Nov. 7.—[Special.]—Hillsboro votes unanimously for Towner, and admits the whole Buxton ticket, independent-republican is elected.

Massachusetts is claimed for Butler by 15,000 to 20,000 majority.

New Hampshire goes democratic, and New Jersey, ditto.

Barnes county gives 800 republican majority, and Richland 1,000.

At Moorhead Nelson's friends claim an estimated majority of one thousand.

Louisiana and Missouri show democratic gains.

Illinois state holds republican straight. The Chicago democratic county ticket is probably elected.

Kindred and Nelson are very close.

AT GRAND FORKS.

GRAND FORKS, Nov. 7.—[Special.]—The election in this city passed off quietly. There was a light vote here. Raymond 500 and Brookings 52. The regular republican ticket carried the city by over 200 majority. No county precincts are yet heard from, but it is the general belief that Brookings' entire vote in the county will not exceed 200.

THE COUNTY SEAT OF KINDER.

DAWSON, D. T., Nov. 7.—[Special.]—Dawson claims the county seat by one vote.

THE VOTE AT STEELE.

STEELE, D. T., Nov. 7.—[Special.]—Total number of votes cast, 91. For Raymond 88, Ball 91, Maratta 87, Goodrich 83, Williams 90. County ticket very close.

VALLEY CITY BAGS THE ENEMY.

VALLEY CITY, D. T., Nov. 7.—Barnes county gives Raymond and Ball eleven hundred, and the legislative ticket eight hundred majority, with several solid precincts to hear from. We have met the enemy and they are ours.

VALLEY CITY, Nov. 7.—[Special.]—The following is the vote of Valley City on the legislative ticket: Whole number of votes cast 587; Raymond 587; Brookings none; Ball 420; Nash 162; Nickens 382; Maratta 178; Benson 372; Williams 382; Jones 159; Goodrich 156. No returns have yet been received of the legislative ticket from other portions of the county, but it is estimated that the majority for the republican ticket will not fall short of 800.

VALLEY CITY, D. T., Nov. 9.—[Special.]—A reliable informant who has just arrived from Griggs county says that the republican legislative ticket received over 800 votes out of 900 cast. The vote on county seat gives it to Cooperstown by a majority of 238.

ACROSS THE RIVER.

MANDAN, Dak., Nov. 8, 4:40 a. m.—[Special.]—Despite the red-hot stage of the local campaign the election was very orderly here. Newport is beaten by about sixty majority. W. A. Carr, E. Boley and J. H. Hager are certainly elected county commissioners, and B. J. Van Vleet for register of deeds. Geo. W. Harmon has a handsome majority for sheriff; also Warren Carpenter, Geo. Bingenheimer and John Hannah. Total vote polled in town 473, county about 100 more. D. W. Maratta is running away ahead of his ticket. Raymond's majority small. Williams holding his own. Only two-thirds of the vote counted as yet.

NELSON WINS THE FIGHT.

ST. PAUL, Nov. 9.—[Special.]—The Pioneer Press has the following from Gilman: From returns now in and from good information the following majorities by count-

res may be expected. In the following counties Nelson has a majority over Kindred about as follows: Big Stone 300; Stevens 100; Travers 200; Pope 700; Grant 700; Douglas 1,350; 600; Norman 400; Becker 200; Polk 500; Marshall 200; Kittson 150; Todd 500; Stearns 500; St. Louis 100; Benton 75. The following counties give Kindred majorities about as follows: Wadena 200; Crow Wing 2,000; Mille Lacs 200; Morrison 300; Carlton 200; Cass 300; Aitkin 200; Itasca 100. The plurality of votes cast in Crow Wing, Cass, Aitkin and Cass counties not being admitted to the above makes Nelson's plurality about 5,700. [Signed] C. A. GRIMAN.

Chairman Committee.

The Pioneer Press has partial returns giving Nelson between four and five thousand majority.

By Associated Press.

MONTANA.

MILES CITY, Nov. 9.—In Miles City the vote at 12:20 a. m. showed democratic majority of 700. Custer county is doubtful—returns not yet in. There are large republican gains in outside precincts. The territory at large is probably for the republican delegate to congress, Alex. O. Botkin. The voting passed off quietly, no bloodshed being reported in any town in the entire territory. The returns come in slowly owing to the remoteness of the precincts.

PENNSYLVANIA.

PHILADELPHIA, Nov. 9.—Complete returns show the next state senate will stand 22 republicans, and 21 democrats. Returns from nearly all the assembly districts, and careful estimates of those not heard from, give the democrats 111 members, and the republicans 91. The figures will not be materially changed. The present senate stands 32 republicans, and 18 democrats. House, 122 republicans, and 79 democrats.

ILLINOIS.

CHICAGO, Nov. 9.—Returns up to Wednesday night leave result on state officers still in doubt. Smith (rep), for state treasurer, has a majority of about 7,000 above Orendorf, (dem). There are portions of about twenty counties not heard from, and as the most of them are in the southern part of the state, which is largely democratic, the full result may overcome this. Stratton (rep), for superintendent of schools, runs behind the ticket, and Gen. O. Hincer is defeated by Ratts (dem).

NEW YORK.

NEW YORK, Nov. 9.—The Times says complete returns now received increase the majority of Cleveland from 185,000 to 196,000, and that the official vote will make his majority not less than 200,000.

TEXAS.

DAVENPORT, Nov. 9.—It is conceded that Ochiltree (rep) has carried the Seventh district by almost 5,000 majority.

Massachusetts.

BOSTON, Nov. 7.—The total vote in the city gives Butler 30,340 and Bishop (rep), 16,719. Butler's plurality is Bishop 13,621. Boston, Nov. 7, 9:15 p. m.—Governor Long is probably elected from the Second district. Boston, Nov. 7, 9:30 p. m.—The Journal gives the plurality for Butler in the state as 20,000, but the entire republican state ticket except Bishop is elected.

Boston, Nov. 9, 9:35 p. m.—The democratic state ticket, 10:45 a. m.—The democratic returns from 97 towns and cities, including Boston, giving Butler 88,807, Bishop 74,810. The chairman puts Butler's majority in the whole state at from 15,000 to 20,000.

WORCESTER, Nov. 7.—Rice, republican, Third district, 2,300 majority. Worcester, Nov. 7, 10:45 a. m.—The republicans concede Butler 20,000 majority; the democrats claim 25,000. Republican congressmen are elected in the Eleventh and Twelfth districts.

Boston, Nov. 7.—Complete returns from several towns show large gains for Butler, but a falling off in rural town votes. Lowell, Nov. 7.—The election in Lowell gives Butler not less than 1,500, and probably 1,800 plurality. In his home ward he leads by 175, though it is strongly republican.

Boston, Nov. 7.—Butler's plurality in Boston, with some wards to hear from, is 13,631.

Illinois.

CHICAGO, 10:15 p. m.—The chairman of the republican state committee states that Dunham (republican) in the first district is elected.

CHICAGO, Nov. 7, 11:30 p. m.—Returns in the city are coming in very slowly. As far as can be learned Hanchett, (rep), for sheriff, has 233 majority; Dunham (rep), First district 322 majority; Davis (rep), Second district 402 majority.

CHICAGO, Nov. 7.—The returns up to 1 a. m., show that the republicans have at least one congressman in the state, and that they have captured the legislature.

CHICAGO, Nov. 7, 1 a. m.—The democrats carry every city office except, possibly, that of sheriff.

Connecticut.

NEW HAVEN, 10:50 p. m., Nov. 11.—A democratic congressman has been elected in the First district by 100 majority, also democrats in the Second and Fourth districts. The Third district elected a republican. This is a republican loss of two congressmen.

The Bismarck Tribune.

BY LOUNSBERRY & JEWELL.

THE DAILY TRIBUNE.

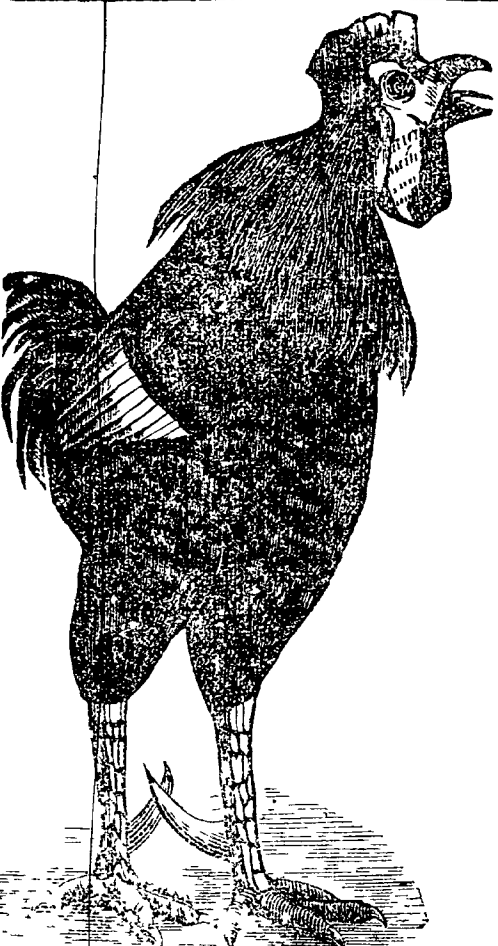

Published every morning, except Monday, at Bismarck, Dakota, is delivered by carrier to all parts of the city at twenty-five cents per week. For the month, \$1.00. For the year, \$10.00. In advance.

THE WEEKLY TRIBUNE.

Eight pages, containing a summary of the news of the week, both foreign and local, published every Friday, sent, postage paid, to any address for \$2.00.

TO ADVERTISERS.

The DAILY TRIBUNE circulates in every town within one hundred miles of Bismarck, reached by a daily mail, and is by far the best advertising medium in this part of the Northwest. The WEEKLY TRIBUNE is a large and rapidly increasing circulation throughout the country, and is a desirable sheet through which to reach the farmers and residents of the small towns remote from rail and lines.

THE TRIBUNE'S ENTIRE TICKET ELECTED.

TERRITORIAL TICKET.
For Delegate to Congress: JOHN B. RAYMOND, of Fargo.
For Member of Territorial Council: JOHN S. C. NICKEL, of Jamestown.
For Representative in Legislative Assembly: F. A. WILLIAMS, of Bismarck; B. W. BENSON, of Valley City.
For District Attorney: W. F. BALL, of Fargo.
COUNTY TICKET.
For Sheriff: ALEX. MCKENZIE.
For County Treasurer: W. H. BELL.
For Register of Deeds: E. M. FULLER.
For County Superintendent of Schools: W. A. LEMLEY.
For County Assessor: JOHN EGEN.
For Judge of Probate: J. J. CALL.
For County Surveyor: FRANK P. BROWN.
For County Commissioner: W. D. SMITH.
For County Clerk: JOHN H. HARRISON, 1st district; JOHN S. SATELLAND, 3d district.
For Justice of the Peace: ALICE McDONALD.
For Constables: JOSEPH H. TAYLOR, JOHNSON, DONALD MCKEE, LEONARD LUCAS.

THE VICTORY.

The greatest event in the history of Bismarck is the result of the election on Tuesday, and it is doubtful if the time will ever come again when any event can excite so much joy or justify such a jollification as was had on the evening following the election.

As stated yesterday, Whitney's band accompanied by upwards of two hundred citizens marched from one point to another serenading and cheering first one and then another of those who took a leading part in bringing about the glorious result. And they did not tire of repeating the compliment time and time again. The TRIBUNE office was visited no less than five times, and to some extent headquarters for those who had been captains in the campaign, while all who called to congratulate or for inquiry were warmly welcomed. The demonstrations in favor of the TRIBUNE took the form of an ovation, almost, and our readers surely will pardon us if we tell them the TRIBUNE was not forgotten in any of the speeches or at any time when cheers were in order.

If the TRIBUNE did not fire its guns in former campaigns it was not because they were not loaded, but because the time for action had not come. The registry law proved a barrier to fraud that could not be overcome, and its value was proven on Tuesday in more than one instance.

Two years ago the steamer Butte landed at Bismarck and her crew, and a lot of men who had been engaged on government work in Montana, voted at the landing and some of them in all three wards in the city in addition. Men were run back and forth between Bismarck and Mandan, and soldiers and transients were called into requisition. But the registry law stopped all of that business. The Emily, like the Butte two years ago this fall, landed on election day and her passengers were brought to Bismarck to vote in opposition to the Citizens' ticket, but the men were ruled out and went away satisfied that no extensive fraud could be played under the working of that law.

It was the registry law that gave the people courage to tackle and end existing evils. That there was a feeling that

this action was required is shown by the fact that the Citizens' ticket was elected by a majority over both the democratic and republican tickets, in every case where there was a contest, and in other cases by overwhelming majorities.

That there will be a greater feeling of confidence in Bismarck in the future there can be no doubt. Hard stories have been told of Bismarck, and, whether true or false, people coming into the country always heard, and naturally believed them, and every interest of the city and county seemed to demand a change, and the people have voted that it should be so, and voted in tones that cannot be mistaken.

The people of Bismarck are as noble hearted and generous as any on the face of the earth; they are as enterprising and honest as any, but they have been judged by such men as H. M. Davis, the Carvelles, the Buffalo Jacks, and the hard stories of some others, who have been in office, and by the conduct of a few would be leading citizens and much capital that otherwise would have been invested in Bismarck has been driven away.

The TRIBUNE tried to excite local and party pride, and bring the controversy down to a strictly party basis, but it could not be done. The same old tricks of controlling both conventions was resorted to, and nothing was left for those who felt a change was demanded but to apply directly to the ballot, without the intervention of party. They did so, and from this time on abuses will not be tolerated, until their remembrance becomes like a mountain of sin that may topple over and bury innocent parties, as innocent parties were slaughtered in this campaign, just because they happened to be on the ticket with old associates. The victory is surely a complete one.

THE TRIBUNE is disposed to end the election campaign with a statement of its results, but there is one feature that deserves mention. The opportunity for fraudulent voting was cut off by the registry law, but fraudulent circulars purporting to be signed by the Citizens' committee were issued by the opposition, announcing the withdrawal of the Citizens' ticket and asking support for Wm. Falconer, Split and fraudulent tickets were also issued, and all sorts of games played to mislead the people. Both proprietors of the Herald were candidates for office. The editor was among the good young men that died politically on the democratic ticket. The other was on the Citizens' ticket. While working on split tickets the Herald devil somehow got Geo. Reed's name knocked off the democratic ticket and the Herald man inserted instead, and when George got around to look after his canvass he found two Herald men on the ticket instead of one, while George was beautifully left, and these tickets had been sent to all portions of the county, and some of his warmest friends were working these tickets. The Citizens' committee did not print or permit a split ticket in their interest. They won success through organization and because the time was ripe for their movement.

The Mandan Pioneer thus congratulates the victors of Tuesday's election: "The news comes over the wires that the TRIBUNE's earnest and well directed efforts have at last been crowned with most glorious success, and that every name on the Citizens' ticket has apparently been elected by a handsome majority. The air is evidently overcharged with agreeable surprises, none of which will be carried with more sincere delight to every home in Morton county than the revolution in the affairs of her sister county, the blessings of which will be felt alike on both sides of the Big Muddy. May later reports confirm the glorious news."

In every portion of the United States the campaign has been one of against bossism. Where the democrats have had large majorities the people have risen in rebellion and given republican majorities. Where the republicans have held undisputed sway the democrats have won. Even Massachusetts gives 20,000 majority for Ben Butler. New York for Cleveland 50,000 majority. Pennsylvania gives 30,000 democratic majority. Bosses have been invited to the rear and the independent voter comes to the front.

The result in Burleigh county shows that clap-trap does not win. It shows that two or three men can not deliver the vote of the county. It shows a disposition to uphold the right and rebuke the wrong. Not McLean; not Stoyell; not Griffin; not Richards—but the people, irrespective of nationality or party, have the right to choose who shall serve them, and knowing their rights they dare maintain them.

CHAS HEALEY and John F. Foley, of the bridge work, deserve special mention for most excellent work done at the polls on Tuesday, in the interest of the Citizens' cause. They were ever on the alert, working from morning until night, in their cause. They deserve every consideration at their hands, and the time may come when their appreciation may be shown.

BELL is re-elected treasurer of Burleigh county by 82 majority over both Waldon and Griffin; Fuller, register of deeds, by 27 majority over both Richards and Falconer. Call is elected judge of probate, by 150 majority. Every man on the Citizens' ticket is elected.

MANDAN has also done itself proud in the election of a ticket composed of good representative men. The truth is it is

just beginning to dawn on the minds of some that Bismarck and Mandan are no longer frontier towns.

A Voice From the River.

EDITOR TRIBUNE:—Victories always follow ideas; all opposition dies before the idea; a thought goes where a thinker can't, and survives whatever calamity. The worker for all reform must make his greatest, most real and efficient power available at the time of choosing men to legislate for the people. Such was the idea (almost inspired) in the minds of the people of Burleigh county and the banner city (Bismarck) on the occasion of the late election. Every man outside of the political pap-sucking lodge in whose hands our county and city affairs were, seemed to awaken to the fact that the men must not be a yoke of oppression and injustice. Such were their ideas, and with minds fully formed and fixed to do themselves and the vast majority of the people of Burleigh county justice, they went to the polls, worked unanimously in the interest of the Citizens' ticket, and their labors were most gratifying.

After the polls were closed and while waiting for returns from the various districts of the county, the banner city had witnessed one of the greatest night's rejoicings ever known in the territory of Dakota. Bands of music accompanied by hundreds of rejoicing citizens paraded the streets until broad day light, as they patiently awaited the returns from the polling districts. Each return brought joyous tidings which was received by valleys of cheers from the citizens which almost seemed to shake the heavens.

At morning as the sun peered over the eastern horizon and the corrupt element worsted, the mist rose high, and the bright rays of Phoebus shone gloriously forth to indicate that the heavens showed brighter hopes for the tax payers and citizens of Burleigh county.

HEALEY & FOLEY.

"Short and Dirty."

Stanley Huntley in the Brooklyn Eagle thus comments on one of Bismarck's first women: "When 'Short and Dirty' entered the young city of Bismarck, Dakota, the first woman that ever crossed the town, the queen on every faro board in the neighborhood was named after her, and it was a point of honor for each player to make his first bet on her. She took her name from her long and slender personal habits, and until Alice Penpel reached the town, she ruled it with a rod of steel. But Alice thrashed her, and while poor, maimed, and disfigured, 'Short and Dirty' was recuperating from the single, the new light spread to grand proportions, and the debauched queen turned her face to the river and died. They were queer women in the early days of the frontier. Possessed of all the uncrushed ambitions of the sex, they carried with them more than a man's energy and ruled or died as occasion demanded without exulting over victory or bewailing defeat."

The National Park Branch.

The Park branch will be built early in the season from Livingston to McLean's ranch, on the north boundary line of the park, five miles from the Mammoth hot springs, and fifty miles from Livingston. From this point the branch will probably be extended around to Cook City, the Clark Fork mining camp, on the eastern border of the park. At Soda Butte, near by, a hotel will be built, thus insuring tourists comfortable quarters while they enjoy the medicinal water of the soda springs. Hotels will also be built at the Mammoth hot springs, Geyser basin, St. Mary's lake, Yellowstone lake, at the canyon and falls. All of the practical modern appliances will be utilized to guarantee comfort to the tourists, including the novelty to the geyser water for heating purposes, and electric lighting will add to the picturesque of the natural wonders of the park.

Those Captured Bismarckers.

The following telegram, which explains itself, was received yesterday by United States Commissioner Corey:

PORT YATES, D. T., Nov. 3.—E. N. Corey, U. S. court commissioner, Bismarck: I am directed by the Indian commissioner to enter complaint against five white men in custody at this agency for violation of the intercourse laws of the United States. You will issue the necessary warrants and send officer at once to take charge of prisoners. Their names are W. H. Walton, James C. Barnes, David Meyer, Silas Hanson and W. M. McKenney. Immediate action is requisite. Acknowledge by wire. JAMES McLAUGHLIN, Indian Agent.

The commissioner immediately replied that warrants would be issued and officers sent.

Home Industry.

Dr. Bentley has been home but a few days, but so busy that he can hardly be seen long enough to be interviewed about his visit to his home. Since Sunday evening last he reports the following new settlers, all hearty and ready to settle for a living, four of them arriving within thirty hours. If they were old enough to vote they would vote the Citizens' ticket. To Mr. and Mrs. J. A. Murray, a son; to Mr. and Mrs. H. B. Allen, a son; to Mr. and Mrs. J. M. McCormick, a daughter; to Mr. and Mrs. John Allen, a son; to Mr. and Mrs. J. Murphy, a daughter; to Mr. and Mrs. Wm. Ryan, a daughter; to Mr. and Mrs. Wm. Smith, a son; to Mr. and Mrs. Frank Peterson, a son.

Machine Measure.

John Quinlan had from his farm, one mile east of Bismarck, this year as follows: Fifty acres of wheat twenty-nine bushels per acre; 100 acres of oats seventy-three bushels per acre. This machine measure. Both oats and wheat, however, considerably over-run in weight. John wisely thinks farming more profitable than politics.

Masonic.

At a meeting of Bismarck Lodge No. 16, A. F. and A. M. held in their hall Monday evening, Nov. 6th, the following officers were elected to serve during the ensuing Masonic year viz: John Davidson, W. M.; O. S. Goff, S. W.; C. R. Williams, J. W.; J. B. Marshall, treasurer; John E. Carland, secretary.

Ordway Issues a Respite.

YANKTON, Nov. 8.—Gov. Ordway has respite for ten days James Leighton Gilmore, who was to be executed November 8, at Deadwood. Gilmore's friends urge that he is not corrupt, and have been very urgent in the case of a commutation of sentence. He has been twice reprieved during investigation by the president. As no official information

in regard to the president's action has been received here, Governor Ordway has given the additional short lease of life, until a fuller hearing can be heard.

THE BANNER CITY

Victory.
It is complete.
The Citizens' ticket did it.
Beautiful weather still continues.
The reading room dinner was immense.
The rejoicing continued all day yesterday.
Griffin says he will be a "Methodist till he dies."

Elections show the weaknesses of some men.
Vennor's predictions of snow have not come true.
Sattel and Veeder cannot be caught by fraudulent circulars.

Bismarck polled over one hundred more votes than Grand Forks.
According to the vote of Bismarck, the city has a population of 3,335.

The eagle bird on the banner, "27 for 1," wasn't so far out of the way after all.
The attempt to vote the roosters of the government steamer Emily didn't work.

Claude Holly is happy. He went out about two miles from town Tuesday and killed a deer.
Mrs. Langtry will sue the Fargo Republican for publishing a cut representing more than truth.

Now let us remember that we are all Bismarckers, and pull together for the prosperity of the banner city.
Now that a few impediments have been cleared away Burleigh county's boom will take a new and healthful start.

The many friends of Capt. J. C. C. Barr are glad to see him back. He says he intends to settle down on his Sterling farm.
The order closing the saloons at 11 o'clock has been rekindled. Jack Walden has notified the saloon-keepers to that effect.

There were registered at the Merchants last night: A. C. Mathies, St. Paul; Evan Mattice, Fort Yates; S. W. Sprague, Chicago.
Steele retains the county seat of Kidder. The vote is a tie, which insures its permanent location at this point. Steele will boom more than ever.

Mr. Steen and his men voted at the Clark farm just a few minutes before the polls closed. Their delay gave rise to the rumor that they did not vote.
De Graff, Jr., went out for a hunt Wednesday night. He killed three antelope and wounded another. He says the antelope in that section are like sheep.

Charley Williams is on record as a republican, and did his part nobly toward bringing success to the Citizens' republican ticket.
John Gannon and M. P. Slattery, of the Tax Payers' association, were in the field early and late working like beavers for the Citizens' ticket.

Mike Francis Tuesday arrested a stranger at Wesport's for stealing an overcoat from the Western house, which he sold to a down town merchant.
Carl Peterson, John Yegen, Louis Westhouser, Joseph Fox, Wm. Glitschka, Louis Larson, and a score of other men, good and true, are entitled to a full measure of credit for noble work done on Tuesday.

Although the people decided that they didn't want Griffin for county treasurer, he proposes to have one of the finest blocks in the northwest. He is paying personal attention to the building, which is now assuming dignity.
The government steamer Emily, with Assistant Engineer H. E. Stevens and party of seventy, arrived from the upper Missouri Tuesday at noon. The engineers have done good work in the improvement of the upper river this season.

The citizens' committee made a close canvass of the vote county previous to the day of election. Falconer's vote was placed at 150; it was 154. The vote of the city was placed at 647; it was 663. If any one thinks three or four did the work they are very much mistaken.
The west-bound passenger train which left Bismarck at 7:30 Sunday evening, struck a bad joint in the track a few miles east of Glendive, and the smoke and baggage cars were thrown from the track and badly demolished. The train was running about twenty miles an hour. A few train men were hurt slightly.

W. F. Steele and John Van Densen, came in on last evening's train. Steele is jubilant over his county seat victory. The vote is a tie which insures its permanent location at this point. Steele will boom more than ever.
Mr. Hirsch, representing the Mannheim Bros., St. Paul, the leading dry goods house of the northwest, is in Bismarck to-day with a full line of the latest novelties in dry and fancy goods. Ladies wishing to be informed upon the latest fashions, and wishing to see his line of samples, should call on him at the parlors of the Sheridan house, where he will exhibit such to-day.

Fargo Argus: While Col. S. G. Magill was out west on his hunting expedition, he combined a little business with pleasure, and purchased the Clark farm, about four miles east of Bismarck, consisting of 3,000 acres, together with the stock, farm machinery, agricultural implements, a large elevator, the townsite and the whole outfit. This is one of the model farms of that section of the country, and the investment made by the colonel will be in the neighborhood of \$75,000.

The following order has been issued by the postmaster: Section 294, postal laws and regulations, is hereby amended to read as follows: After a letter has been received from mailing postoffice, the delivery of the same may be prevented and its return to the writer secured by an application made by the writer to the postmaster at the office of mailing, stating sufficient reasons therefor, identifying the letter and supporting such application with sufficient proof in writing.

Pioneer Press: Vice President Oakes says the North Pacific is earning at the rate of \$9,000,000 a year, and the whole line will be in operation by next September. Marshall Field of Chicago has been elected a director of the Manitoba road. The agreement has been signed by the North Pacific respecting an adjustment of territory. Gould's private secretary is credited with the statement that Gould is going into a six months' fight with the Mutual Union, and will sacrifice two dividends by cutting rates, if necessary, to bring it to terms.

A Soldier's Tragic Death.
A telegram has been received in this city announcing the death of Lieut. Griffith, of the Second cavalry, while out on a telegraph repairing trip. The party were on Indian Creek, in Montana, at a point about thirty miles from Custer. Lieut. Griffith was last seen by his men mounted and passing over the summit of

a hill. A few minutes later the horse came back on a run, dragging the lieutenant, whose foot had caught in the stirrup. He was dragged three-quarters of a mile. Lieutenant Griffith was a native of California, and a West Point graduate of 1881.

BRAVE BEAR.

The Sentimentalist Who Would Have Him Pardoned, Denoed.
(Deadwood Times.)

Joseph Johnson came to Dakota in 1876, and went to the Cheyenne river agency where he found employment with the Indian trader. He stayed there until May, 1879, worked diligently and faithfully, and by his honesty, truthfulness and manly qualities, made a friend of every person who came in contact with him, white man or Indian. In May he made arrangements for a short visit with some friends who lived below Fort Sully on the other side of the Missouri river from where he was working, sending them word that he would be there on such a day.

He told his friends when he was going and when the time came, saddled his horse, drew \$800 in gold and currency, took his Winchester and started. Brave Bear was at the agency all this time, knew Johnson was going, knew the route he would take in going to his friends, and to carry out his hellish purpose lay in ambush and as Johnson rode up to where he was hidden, fired his rifle and killed him.

It was several days before the murdered man was found, and then it was found that his gun, money and horse were missing. Brave Bear was seen with the dead man's money and property, in fact, made no secret of the killing, but fearing arrest, gathered up his effects and went to Sitting Bull's hostile camp in British America, where he remained until that band came in and surrendered. Since that time he has been arrested, indicted, tried, convicted and sentenced to death.

The evidence of the Indian witnesses alone would have convicted him on the trial, in fact, the evidence was positive. Brave Bear was not only a renegade Indian, but a murderer, and as such was feared and despised by all of them.

The attorney who defended him, for doing so, has enlisted the good church going people of Yankton in the interest of this benighted heathen, to such an extent that President Arthur has granted two respites of sixty days each, and they are now interceding for a pardon.

We decidedly object to this. It is an outrage upon the memory of the late lamented Johnson, and a fraud upon justice and civilization. Commute his sentence to imprisonment for life if nothing less severe will do, but pardon him never.

The death of this murderous rascal would have a wholesome effect upon all such renegades, and there are plenty of them in all of the tribes, and they are beginning to think that our government was constituted for no other purpose but to feed and clothe them, and occasionally furnish a subject for them to wreak their inherent vengeance upon.

We of the Hills portion of Dakota have had a bitter experience with renegade Sioux of the Brave Bear stripe. Our hills and valleys are dotted with rude crosses that have been erected to point out the last resting place of hundreds of noble spirits who have been murdered by these fiends incarnate.

We have said this much from the fact that we learn the good people of the Missouri valley are uniting and asking the president to let justice have her course, and the judgment of our courts be executed. We would like to see a move made in Deadwood in this direction.

Improvement of the Missouri.

Every year the upper Missouri river is becoming better for navigation. If the government will only continue to make increased appropriations, in a few years it will be possible to navigate the Missouri river to the Great Falls during the entire season. The corps of engineers under Assistant Engineer H. E. Stevens, has done excellent work this year.

The steamer Emily, Capt. J. C. Barr, master, left Bismarck on the 5th of May last, and returned to the levee at Bismarck Tuesday, where she will winter. The actual working time put in by the party of fifty, was about 140 days. In August last a party of thirty were added to the number, who put in about forty days on dredge boats. The first work done this season was the quarrying of rock where it could be found, loading in barges and towing it to any of the wing dams constructed last year that had in any way been injured by the spring break-up.

Seventy large loads, or about 5,000 tons of rock was thus disposed of. Two brush dams were built this season, one at the foot of Grand Island—300 feet long, and one at Two Calf Island about 80 feet long. The largest dam built this year was the one at Two Calf Island, it being 1,000 feet in length. There were in the dam about 2,500 fascines, or woven mattresses, similar to the Essex plan, 500 tons of rock and about 3,000 tons of gravel. Much of the material was brought some considerable distance, it being loaded on barges and towed to the dam by the steamer Emily. This work was under the immediate charge of assistant engineer Stevens. Another party under W. H. Wood with derrick boats was engaged during the season taking rock out of the river from Holmes rapids to the foot of Gallatin rapids. They moved from the channel of the river about 650 yards of rock, making a clear channel for steamboats 100 feet wide to a depth of three feet in low water.

The Gallatin rapids were the worst on the river this side of Claggett, and is the place which turned the Rosebud. She could not even get over the rapids light. Steamboats can now figure on getting to Claggett at any time during navigation season, and when one or two bad places are fixed, boats will have no trouble drawing three feet. The river has been four inches lower this season than was ever known before, thus giving the engineers an opportunity of seeing what is most needed to improve the river.

The derrick boats will winter at Gallatin rapids, the six barges at Ryan's rapids and the Emily at Bismarck.

The Result in Kidder County.

Kidder county cast 262 votes, of which Capt. Maratta, for the council, received 261. At Tappan, 65 votes were cast; at Dawson, 107, and at Steele 91. For the county seat the fight was between Steele and Dawson, the vote resulting in a tie, thus leaving it to the residents of the booming town of Steele as happy, and the demand for lots and land has been considerably stimulated.

Fifty People Burned.

HALIFAX, N. S., Nov. 8.—About twelve o'clock last night while all the hands were sleeping, fire broke out in the bake house, in the basement of the immense poor asylum building. Exactly how it originated is not very clear, but the smoke of the smoldering wood spread through the building and caused the utmost terror among the four or five thousand inmates of the institution. There was no immediate danger, so the officials of the asylum did not take steps to remove the inmates. An alarm was sounded, and the stroke of the bell had scarce commenced, when the reels were run out of the engine houses, as one or two men happened to be about. In the west wing the old women and children were seen at the windows crying to be let out. A sturdy axeman dashed at the door leading from this wing into the yard, and knocked it in. The stairways were crowded and out came the procession of women, nursing infants, old gray headed grandmothers and feeble men. Then it became known that they in the upper wards of that wing were helpless. Some of the firemen, and afterwards others who were among the early arrivals, hastened up and with willing hands were soon getting the kind, halt and lame down the winding stairs, in without guidance, but could do nothing which the superintendent, engineer and officials were trying to keep under, spread to the base of the long air shaft, or elevator, reaching to the top of the main building. The draft here swept the flames upwards with tremendous force, and in a few seconds the heavens were lit with the fire. The story goes under the eaves in this building was used as a hospital, and in it were about seventy patients all perfectly helpless; the fire was now fiercely burning right in the hospital and above it the heat was so intense, the lead poured down the eaves in streams of brilliant fire, and the smoke flow over the roof, shower, rendering any near approach to the building almost certain death. Notwithstanding this, there were hundreds standing outside who would willingly have entered the building if they could have found their way through the place. Indeed, several did go in, without guidance, but could do nothing which the superintendent, engineer and officials were trying to keep under, spread to the base of the long air shaft, or elevator, reaching to the top of the main building. The story goes under the eaves in this building was used as a hospital, and in it were about seventy patients all perfectly helpless; the fire was now fiercely burning right in the hospital and above it the heat was so intense, the lead poured down the eaves in streams of brilliant fire, and the smoke flow over the roof, shower, rendering any near approach to the building almost certain death. Notwithstanding this, there were hundreds standing outside who would willingly have entered the building if they could have found their way through the place. Indeed, several did go in, without guidance, but could do nothing which the superintendent, engineer and officials were trying to keep under, spread to the base of the long air shaft, or elevator, reaching to the top of the main building. The draft here swept the flames upwards with tremendous force, and in a few seconds the heavens were lit with the fire.
